

Wood Chip Silt Sock

Specification Sheet

- Our wood chip silt sock is an alternative to silt fence and can be used for perimeter control, slope interruption, and sediment control. The silt sock is weed, seed & disease free.
- The photodegradable synthetic fabric has a life expectancy of 12-24 months, has an opening of 1/8", and is available in different diameters.
- The filler material is Type 6 Mulch Material 3882.
- The sizing of the material also promotes sediment reduction and water filtration.
